Overview

Definition of Done

Team 11

Introduction

Quality attributes

DoD at PBI level

DoD at Sprint level

We have defined *Done* in two levels:

- ▶ At the product backlog item level
- ▶ At the sprint level

To ensure high quality we have specified important quality attributes to make sure non-functional requirements are always met.

Quality attributes

- ▶ Usability
- ▶ Security
- ▶ Performance
- ▶ Attribute 4
- ▶ Attribute 5

DoD at Sprint level

DoD at PBI level

A product backlog item is complete if

- ▶ Criteria for unit test coverage
- ▶ Criteria for functional system test coverage
- ▶ Criteria for coding standard
